

ANNOUNCEMENTS

Establishment of the Dermatology Foundation

The Dermatology Foundation, a national, non-profit organization, has been established to secure support for educational and scientific activities in the field of dermatology.

The Foundation was formed to help improve teaching, practice and research, thereby contributing to the better control of skin diseases. The organization is privately financed from contributions, endowments and bequests.

The three major dermatological societies in the United States have endorsed the formation of the Foundation. Each of the three organizations—the American Academy of Dermatology, the American Dermatological Association and the Society for Investigative Dermatology—has nominated members of the Board of Trustees.

The Foundation's Board of Trustees maintains contact with all aspects of dermatology through appointed committees. By determining long range needs and establishing plans of action, the Trustees can provide support where necessary, furthering the Dermatology Foundation's objective of better patient care.

The Founding Trustees are: Donald M. Pillsbury, M.D., Chairman; Irvin H. Blank, Ph.D., Secretary; J. Lowry Miller, M.D., Treasurer; Herman Beerman, M.D.; Thomas B. Fitzpatrick, M.D.; Robert R. Kierland, M.D.; Clarence S. Livingood, M.D.; Wiley M. Sams, M.D.; Marion B. Sulzberger, M.D., and Eugene J. Van Scott, M.D.

The Foundation has established an office at 420 Lexington Avenue, New York, N. Y. 10017 (area code 212 Murray Hill 3-6066). Gerard W. Speyer is Executive Director. Stephen T. Donohue will serve as Public Relations Counsel.

DONALD M. PILLSBURY, M.D.
Chairman
Dermatology Foundation

Dome Laboratories Awards

Dome Laboratories, formerly Dome Chemicals, Inc., of New York, Division of Miles Laboratories, Inc., has established through the Ibero-Latin American College of Dermatology two awards, one of \$800 and the other of \$400, for the best two original papers on a fundamental aspect of dermatology not previously published.

To participate in this contest, it is necessary that the author be presently associated with the Ibero-Latin American College of Dermatology or that he expresses to them in writing his intention of becoming a member.

The papers must be written in Spanish or Portuguese and presented at the VI Congress of the Ibero-Latin American College of Dermatology.

This first contest will close on October 31, 1966. For more detailed information please write directly to: Dr. David Grinspan, Arenales 947-2° A, Buenos Aires, Argentina.
